

Aliveness Index

The world has taught us to measure success by what we achieve. The Back Half measures something different. Aliveness.

The purpose of this assessment is not to judge your life. It is to help you clearly see it.

Answer each statement honestly based on your life today, not the life you hope to have. There are no right or wrong answers. Only honest ones.

Rating Scale

5 — Always True	4 — Usually True	3 — Sometimes True	2 — Rarely True	1 — Not True

Reflection

Which category received your highest score?

Why do you believe this area feels so alive?

Which category received your lowest score?

If you intentionally improved only this one area over the next year, how would it change your life?

Remember

The purpose of this assessment is not to tell you whether your life is good or bad. It is to help you identify where your life feels most alive—and where your Back Half is inviting you to grow.

Because awareness always comes before transformation. And transformation begins with intention.

Magical is Possible.
